DETAILED ACTION

1. Claims 68-95 are allowed.
2. Applicant's arguments, see Appeal Brief, filed 5/19/2005, with respect to independent claims have been fully considered and are persuasive. The rejections of claims 68-95 have been withdrawn. The Beyda (US 6,404,873) and Shitvelman (US 6,078,581) reference discloses a telephone conferencing system. However, they not disclose a stream controller to select and sets modes among the multiple source and sink modes independently. Therefore, the previous rejections have been withdrawn.

Reason for allowance

3. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest, individually or in combination of a streaming controller to select among the multiple source modes and the multiple sink modes independently of each other for any of the devices, so as to establish a data streaming connection among certain of the plurality of devices as identified by the selected source and sink modes in light of other features describe in independent claims 68, 82 and 92.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Liang-che Alex Wang whose telephone number is
